Hi Dennis –

Joe Donovan was at the Paden City PCE site on Wednesday, June 19 to retrieve all of his transducers from the wells (City and EPA). Upon gaining access (I helped him connect with Bryan Jones of Wetzel Co. BOE thanks to [REDACTED] providing the correct contact info) Joe learned that the lock on the back gate to the football/track recreation area at the Paden City High School has been changed. A new key will need to be procured from Mr. Jones in order to gain access. I let [REDACTED] know via phone.

Also curious about next steps and if you have a final version of the trip report ready for distribution. Probably best to have a meeting with all the cooks in the kitchen before we proceed. I have not heard anything further from WVBPH or Paden City with regard to any recent pre, post (treatment), and/or drinking water distribution system PCE analytical.

Thanks,

Bill
